Message from the Communications and Networking Chair

It has been an honor to serve as the Communications and Networking Chair of the Meniscus Section for the past two years. I would like to acknowledge all members of the Communications and Networking committee, **Salomi Desai, Dr. Farrah Monibi, Dr. Francesco Travascio, Dr. Raghunatha Yammani, and Dr. Jay Trivedi**, for their service and hard work to make the Meniscus Section accessible to the membership. They are the unsung heroes responsible for putting together this newsletter and planning exciting virtual and in-person programming. With this year ending, I would also like to thank all the Meniscus Section committee members for putting their hard work in mobilizing to support trainee symposiums and the virtual poster tour.

I would also like to thank and acknowledge **Drs. Andreas Seitz** and **Muhammad Farooq Rai** for serving as chairs before me. It was my time working with them as a committee member that compelled me to join the board. Their service to the Meniscus Section has placed us on sure footing as we move into the future.

My time with Meniscus Section leadership has been one of the most impactful experiences of my professional life. It has spawned collaborations, academic growth, and most importantly, deep and lasting friendships. I look forward to seeing you all at the annual meeting in Dallas and can't wait to show you the exciting networking activities we have planned for you all!

Thank you,

Sonia Bansal, PhD

ORS 2023 Annual Meeting

Be sure you are registered for the section meeting, otherwise you will not be able to get into the session!

The upcoming in-person ORS 2023 Annual Meeting is coming up soon! We are excited to see everyone and look forward to welcoming old and new members of our committee to Dallas, Texas for the ORS 2023 Annual Meeting.

The ORS 2023 Meniscus Section Scientific Meeting will be held on **Sunday, February 12, 2023, from 12:45-3:30 PM**. The first portion of the scientific meeting is only available to section members and will feature a discussion between Dr. Romain Seil and Dr. Aaron Krych, on the topic of: "Controversies in Meniscal Repair: Complex Repair vs. Meniscectomy". The second portion of the section meeting is open for all ORS members to attend from 2:30-3:30 PM and will feature talks by Dr. Petri Tanska PhD and Dr. Jason Halloran PhD, on the topic of "Knee and Meniscus FEM: Overview From the Past, of the Present, to the Future". This is a must-see session, and we're excited to see you all there.

Virtual Trainee Mini-Seminar Series

Thank you everyone for attending the Mini Seminar

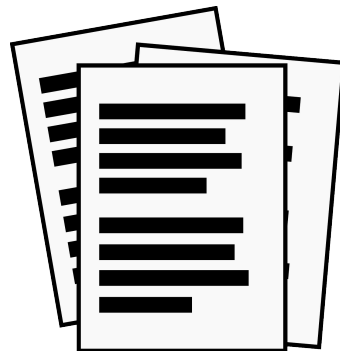

Series on Meniscus hosted by Networking committee members, **Dr. Raghunatha Yammani** and **Dr. Francesco Travascio** on December 7, 2022. The idea behind mini symposia was to provide a platform for our trainees to showcase their research to the community and a big shout out to our presenters: **Ms. Luisa De-Roy**, **Mr. Chirayu Patel**, and **Mr. Austin Goulding** for showcasing their fantabulous research projects.
